100th Day of School Escape Room

Print or Digital

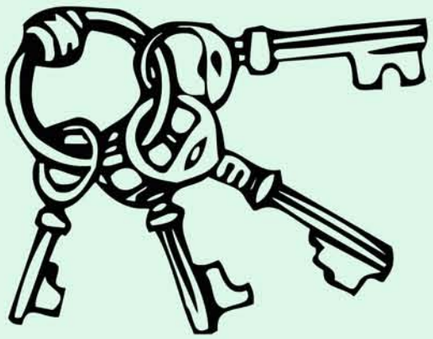

Standards
3.NBT.A.2
3.OA.A.3
3.OA.D.8

3rd Grade Math

- Adding & subtracting within 1,000 (including across zeros)
- Single digit multiplication and missing factors
- Solving two-step word problems using the four operations

Fast Facts

- Click & go digital version
- Low prep black & white printable version
- Escape Time ~45-60 minutes
- Best used in pairs or small groups
- Digital requires internet connected device
- Self-checking digital
- Virtual or in-person
- Five Engaging Puzzles

How it Works - Digital:

- The escape room is automated by a Google Form™ (Google™ accounts are not required).
- Use the quick start link to click & go, or create a copy of the form to save to your drive (the teacher must have a Google™ account to save a copy).
- Students only progress through the puzzles when correct answers are entered.
- The form provides hints if students enter incorrect answers.

How it Works - Print:

- Five black-and-white printable puzzles
- Low prep!
- Print the five clues, intro, and success page
- Give students the intro and clue 1 to begin
- When students solve a clue, they bring the answer to you.
- If the answer is correct, give the next clue.
- Continue until students solve the final clue.
- Use individually, in pairs, in small groups, or as a whole class.
- Great for centers!

Look on the right bus to find your next key. Choose wisely.

The correct bus does not have the largest or smallest answer to its license plate problem.

The digits in the answer to the license pla[te] add up to more than 15.

The answer to the license plate problem [is] an even digit in the tens plac[e]

Puzzle Preview

First Number

Six classrooms each made 8 paper stars to decorate the hallway for the 100th Day celebration. Another class made 15 more stars. How many paper stars did the students make altogether?

Second Number

A bakery delivered 160 mini cupcakes for the 100th Day celebration. The teachers put 9 cupcakes on each of 8 trays to take to their classrooms. How many cupcakes were left?

Third Number

Students have already made 64 bracelets for the 100th Day celebration. They have 73 gold beads left, and each bracelet needs 9 gold beads. If they use all the remaining beads, how many bracelets will they have altogether?
